

Mira Hasiba

Evanston, IL | Mirahasiba2029@u.northwestern.edu | [linkedin.com/in/mira-hasiba-398a72370/](https://www.linkedin.com/in/mira-hasiba-398a72370/)

EDUCATION

Northwestern University, Evanston, IL

Bachelor of Science | Electrical Engineering | 3.8

Expected Graduation: June 2029

- Fall 2025, Winter 2026, Spring 2026 Dean's List
- Intro to Electrical Engineering, Engineering Analysis, Design Thinking, and Communication

Evanston Township High School, Evanston, IL

High School Diploma

Graduated: May 2025

SKILLS AND INTERESTS

- **Technical Skills:** MATLAB, Photoshop, KiCad, Manufacturing, Soldering & Wiring, CAD
- **Core Skills:** Collaborative, Adaptable, Attention to Detail, Proactive, Project Management
- **Languages:** Arabic

EXPERIENCE

Northwestern HAND ERC/Haptics Laboratory

Evanston, IL

Research Assistant

June 2026 - Present

- Design a specialized Capacitance-to-Digital Converter (CDC) for a realistic robotic hand that reads an $N \times N$ array of capacitive sensors at 1000 Hz
- Utilize an oscilloscope and multimeter to debug circuits
- Design printed circuit board (PCB) schematics for the CDC
- Collect data using MATLAB to calculate capacitance using voltage
- Present progress and findings at weekly meetings
- Apply feedback from colleagues and professors to progress research efforts

Northwestern Student Affairs IT,

Evanston, IL

Computer Support Technician

October 2025-Present

- Review and fulfill service requests from students, staff, and faculty
- Disassemble and assemble personal computers, replacing components & wiping memory boards
- Reinstall hardware as needed
- Engage with campus community members and answer phone calls

LEADERSHIP AND INVOLVEMENTS

Northwestern Baja Society of Automotive Engineers

Evanston, IL

Electronics Engineer

June 2026 - Present

- Leading design of front data acquisition and HUD printed circuit boards (PCB)
- Implementing new GPS and radio capabilities for the '27 car
- Integrating various PCBs into the '27 car's design

First Year Member

September 2025 - June 2026

- Completing manufacturing tasks using high-skilled machinery
- Assisting with soldering and wiring of electrical components for the PCBs
- Providing support to fellow students with their projects (powertrain, electronics, ergonomics)

American Society of Mechanical Engineers

Evanston, IL

Member

January 2026 - May 2026

- Researched components for rover project
- Contributed rover design schematics and estimations
- Designed the electrical system and attached components to rover
